

Genesee Health System
Request for Proposal for Guardianship Services
Pre-Bid Questions and Answers
RFP Issued: November 11, 2018
420 W. Fifth Avenue, 2nd Floor Annex
Flint, MI 48503

Q1. *Is this contract exclusively for this block of individual clients?*

A1. **Yes, this contract is unique to these 63 specific clients.**

Q2. *When an individual client no longer requires court ordered guardianship services (i.e. upon death, etc.) and moves off of the list of 63, will new individual clients become eligible to be added to the contract?*

A2. **GHS does not anticipate adding any additional individuals under this contract.**

Q3. *If accepted as written I see no prohibition in the guardian seeking secondary funding when available. I assume that there would be no prohibition of the guardian seeking secondary funding when possible to supplement this contract. Is that also GHS's position?*

A3. **Genesee Health System (i.e. Medicaid funds) is the payer of last resort. Should any individual client have an ability to pay; or if the client is eligible for guardianship services to be paid through other arrangements or funding sources; then, GHS must be notified immediately. Genesee Health System should not be paying for guardianship services for any specific individual who is able to pay or have those services otherwise paid for outside of GHS/Medicaid.**
