APPROVED BY: Shawn Edwards, MA, QIDP
Senior Director of Engagement, Diversity & Inclusion
Education and Customer Services

DATE: Implemented: 11-2010
Revised: 06-2011; 01-2012; 03-2012; 09-2013; 06-2014; 06-2015; 01-2016;
09-2016; 11-2016; 03-2017; 08-2017; 10-2017; 03-2018; 05-18; 10-2018;
10-2019; 08-2020; 10-2020; 12-2020; 11-2021

I. INTRODUCTION

This plan reflects a listing of training requirements outlined in the current QAPIP, MDHHS, GHS policy manual, CARF and Federal requirements.

It is not topically exhaustive, but does capture all areas essential to conformance with standards.

II. GENERAL INFORMATION

Regardless of the type of training, the following general requirements apply:

- A. To register for a class or training, staff must sign up via the Genesee Health System (GHS) intranet or on the Moodle platform. If an individual from the provider network does not have access to Moodle a help ticket must be put in. If staff does not have OPSC access to complete the help ticket, a secretary or supervisor who has access may submit a help ticket for the individual. Alternatively, to request access to the OPSC, staff should forward a completed Computer Acceptable Use Agreement (CAUA) form via fax to Provider Relations at (810) 496-5770.
- B. All newly hired GHS staff will receive a training reminder during New Employee Orientation. Training notification for GHS staff and network providers is sent out via email. Network Providers are responsible for ensuring that GHS has their correct email, fax number, and U.S. Mail address. Providers are responsible for monitoring their own training needs and must ensure that their staff adheres to all training requirements. GHS Quality Management will audit for compliance.
- C. Periodic assessments of training needs are conducted annually through Provider Relations for the Provider Network. These assessments include suggestions for in-services and trainings beneficial to the population served. GHS staff are surveyed once per year on training needs. The Training Department will review all requests and make recommendations for the upcoming year's training offerings.

D. There may be a cost for trainings that are offered through GHS for the Provider Network. Registration fees will be based on whether the classes contain Continuing Education credits and/or contact hours from the Michigan Certification Board for Addiction Professionals (MCBAP), as well as the standard material costs of the class. Providers and/or attendees will be expected to pay the required amount 72 hours prior to the start of the class or their registration will be cancelled.

E. Registration fees are payable to:

Genesee Health System
Attn: Accounts Payable Re: (***please specify training***)
420 W. 5th Ave. (2nd floor annex)
Flint, Michigan 48503

Please bring receipt of payment to Training on day of training session.
Classes cancelled without 48 hours' notice will not receive a refund.

F. Some trainings are recorded and may be viewed at GHS. Contact the Training Department at (810) 762-5280 or email training@genhs.org to schedule a viewing.

III. **REQUIREMENTS/EXPECTATIONS**

A. **All Staff**

The trainings listed below are required of ALL staff in ALL programs serving individuals with mental illness and/or developmental disabilities.

New Employee Orientation (**GHS Staff Only**)

Takes place the first full week of every other month. For a complete list of courses, contact the Training Department. (See attached sample of NEO training schedule)

1. Rights of Persons Served

Live training required by GHS Office of Recipient Rights within first 30 days of hire, then annually via GHS Annual Compliance DVD/online training. For out of county providers, any alternative CMH Recipient Rights training must be approved by GHS Office of Recipient Rights in advance. Current reciprocity agreements are arranged with the following counties; Kent, Macomb, Lapeer, Livingston, Oakland, Saginaw and Washtenaw.

2. Annual Compliance Training

Annual Compliance Training is required annually for all GHS staff, or staff employed by a GHS contracted provider of mental health and/or developmental disabilities services.

This annual training is available on DVD and offered online on Moodle. For FY 21-22, this training includes the following components:

ANNUAL COMPLIANCE TRAINING
Corporate Compliance
Critical Incident Reporting
HIPAA
Limited English Proficiency (LEP)
Person / Family Centered Planning
Recipient Rights
Welcoming and Customer Service
<i>Health and Safety – GHS staff only</i>
<i>Media and Communications – GHS staff only</i>
<i>Implicit Bias</i>
<i>Trauma Informed Care</i>
<i>Community Safety</i>

3. Universal Precautions

Not offered by GHS to the Provider Network, but required annually of all staff.

4. Medical Emergency Training (GHS staff only)

GHS requires that all staff in departments that serve clients directly be trained in CPR. GHS uses the American Heart Association curriculum, and renewals are due every other year. Red Cross training is also accepted – clinicians are to submit copies of their certificates to the Training Department for tracking.

5. Non-violent Crisis Prevention

Crisis Prevention Institute® (CPI) training is required annually for all GHS staff who work directly with consumers.

CPI Principles training is required bi-annually for GHS staff who do not work directly with consumers.

6. Cultural Competence

Cultural Competence education is offered to all New Employees and is an annual requirement for all employees. See GHS Cultural Competency Policy and GHS Cultural Competency & Diversity Plan for additional information.

B. Primary Clinician

The following classes are required of ALL clinical staff (defined as those responsible for the Plan of Service) in ALL programs serving individuals with mental illness and/or developmental disabilities.

a. Primary Clinician Training

Each year, we offer current trends and topics for our clinicians to be abreast of the newest and most current research for appropriate application when working with people.

C. Clinical Services – MI, ID-DD

1. **Clinical Process Training MI, ID-DD**

This training is designed to assist in understanding the professional development for clinical staff for Case Managers and Supports Coordinators. Training takes place every opposite month of New Employee Orientation. GHS staff only. For a complete list of components, contact the Training Department.

2. **CAFAS/PECFAS Training**

- a. Training and certification for primary clinicians who work with children consumers with a mental illness ages 3-17.
- b. CAFAS (Child and Adolescent Functional Assessment Scale) and PECFAS (The Preschool and Early Childhood Functional Assessment Scale) are MDHSS required trainings.
- c. An initial training will be provided to all new staff with the requirement within 6 months of hire and booster trainings annually thereafter.

3. **LOCUS P.A.S. (Level Of Care Utilization System for Psych and Addiction Services**

Training A clinically reliable and valid decision support tool for determining appropriate level of care, capable of measuring client needs over time.

- a. All Primary Clinicians, Intake Staff and Therapists working with persons with a severe and persistent mental illness over the age of 18 are required to be trained in LOCUS P.A.S.
- b. Trainings are hosted via webinar through Deerfield Solutions (<http://locusonline.com/training.asp>) and must be completed within 6 months of hire. These courses are offered at no cost using the agency code: C00060

C. Direct Care Worker

ALL direct care workers (defined as those providing services in Residential, CLS, CLS with Med Drop, Independent Living, Respite settings, and Day-Work program settings) in ALL programs serving individuals with mental illness and/or developmental disabilities are required to complete the Direct Care Worker Requirements listed on page 9.

Employees of these programs are required to have this training within the first 30 days of hire. These standards will be audited by GHS's Quality Management Department Provider Network Reviewer. Please refer to page 10 of this document for a list of required DCW training modules.

- a. When hiring employees who have already completed the requisite training, the program/home will maintain evidence of completion within their respective agencies. Toolbox trainings are not transferable between agencies or between homes of the same agency.
- b. All home/day program managers and assistant home/day program managers must attend annual food texture training. All staff must be trained annually. Caregivers providing visits or meals outside of the program must view the Food Texture Modification DVD and understand food preparation for the consumer if applicable.

- c. If the program/home hires an employee who has been out of the direct care field for two years or more, the employee must repeat the entire course of trainings or take and pass the competency-based tests.
- d. Individual training records for all staff must be kept in the program. Tests must include score. These records must be produced for audit.
- e. All classes must be passed with at least an 80% score, other than Medications which requires an 86% score.

1. Trainers/Training Plans

All providers are required to submit current training plans to GHS. Please email completed plans to TrainingPlans@Genhs.org. Plans must be submitted annually by October 31st. *A link to the current GHS training plan can be found on the provider section of the genhs.org site.*

- a. Each program/home will make training available via its own trained trainer, or in agreement with GHS's approved trainer/agency.
 - The trainer must be train-the-trainer certified or trained in adult learning theory through DCH or GHS approved training course. GHS may periodically offer trained trainer courses and will post offering when it becomes available.
 - The trainer must be approved through GHS's Training Department.
 - All trainers will pass an annual certification exam with a score of 80%.
- b. This plan should include a schedule of the program/home's periodic refresher training of DCW modules (e.g., medications, environmental emergencies, implementing relapse/crisis plans, non-violent crisis prevention and therapeutic intervention). In addition, the program/home should describe their plan for providing any population specific training to address specific issues (e.g., diabetes, special diets, behavioral issues, food preparation) fundamental to providing quality care to intended consumers. All trainings must include competency-based tests, inclusive of the staff name, date the test was taken, the topic reviewed, test questions/answers and the final grade. Any change in the plan must be approved through the GHS Training Department. The program/home must also inform the Training Department if they have a change in trainers. Failure to do so will result in sanctioning.
- c. The corporation will send at least one trainer to each quarterly Trainer meeting. This representative will update the other trainers on topics covered in the meeting.

2. IPOS Training Format for Staff Providing Direct Services

- a. Case Manager/Supports Coordinators will ensure that training over the entire plan of service occurs with staff who are to carry out the plan or parts of the plan prior to the start date of the IPOS. Case Managers/Supports Coordinator will complete training on portions of the plan either directly authored by their CM/SC or falling within their professional scope, and not portions of the IPOS authored by consultative staff. Consultative Staff that have written or have professional oversight of treatment plans for the individual must also train prior to implementation, preferably by the individual that wrote the plan.
- b. A hard copy of the most recent IPOS will be maintained at the day program and specialized residential programs. Upon completion of IPOS training, Specialized

Residential staff and Day Program staff will sign and date the front page of the IPOS (often located in the program floor book) and the Primary Clinician/Consultant Training Documentation Form. The Training Documentation Form is found in CHIP. If signature is illegible, staff will also print their name next to signature.

- c. CLS and Respite staff will sign the Primary Clinician/Consultant Training Documentation Form. The clinician will ensure that the original is scanned into the electronic medical record and that a copy has been forwarded to the Provider Agency for CLS or Respite. If signature is illegible, staff will also print their name next to signature.
- d. The home manager or program manager are able to provide ongoing training to the staff they supervise or any new staff hired as long as they were trained by the CM/SC and Consultative Staff directly on the IPOS. Staff are to sign and date as evidence of the training as specified above prior to providing services to an individual.
- e. Specialized Residential programs and Day programs are to have regular monthly meetings to allow the training to be scheduled unless it is an emergent placement. For an emergent placement, training is to happen the day of placement for any significant challenging behaviors or health issues, all other portions within three days.
- f. Evidence of training must be kept on site and will be audited by the GHS Provider Relations Department.

IV. **OTHER TRAININGS**

A. Speakers Bureau

GHS will provide a Speaker Bureau for the community and will fulfill as many requests as possible.

- Speakers will be recruited according to content requested.
- Marketing is done via brochures and mailings.
- Coordinated through Customer Services at (810) 257-3705

B. Mental Health First Aid

GHS will offer Mental Health First Aid to the Community. This is an 8 hour course that provides 6 (six) social work CEU's. Courses available are:

- Youth
- Adult
 - Older Adults
 - Veteran
 - Higher Education
 - Law Enforcement, Corrections and Public Safety

C. QPR (Question Persuade Refer)

Suicide Prevention Gatekeeper Program

D. The Behavior Analyst Certification Board ACE Provider Authorized Continuing Education

- a. ACE Coordinators and Individual Providers must meet all of the following criteria:
 - be actively certified in good standing as a BCBA

- have at least 36 months of full-time experience in behavior analysis after earning a Master's degree or 18 months of full-time experience in behavior analysis after earning a Doctoral degree
- be willing and able to fulfill all responsibilities described herein for the entire duration of the authorization period (one year)

b. GHS Training Department will host events, gather sign-in/out data, and other maintain necessary course records.

E. Community Trainings available on the GHS Website

GHS will provide various trainings to the community on a regular scheduled basis. These trainings will be offered via a tele format and advertised on the GHS website and other social media platforms to market far and wide. These courses will include Mental Health 101, Question-Persuade-Refer (QPR), Psychological First Aid, Mental Health First Aid and Living Works-suicide prevention training.

F. Additional Trainings

Please note that all trainings that are provided may not be listed in the training plan. These are trainings that may not be incorporated in the training plan, but will be posted at the time of offering via Training flyer announcement publications, email, or other form of notification. If the specified training is offered to the external provider, it will be listed on the OPSC. Otherwise all trainings will be posted in a timely manner for staff registration. This may include but not limited to: new initiatives, conference offerings, licensure requirements etc.

V. **DEVELOPMENT AND EVALUATION**

This policy and its plan will be monitored by the Training Department. Supervisory training reports will be provided monthly to all supervisors alerting them of delinquencies or close to due date notification.

VI. **TRAINING**

It is the responsibility of management staff in all programs to ensure that all staff persons are trained regarding the expectations in this plan.

Each GHS employee has an electronic training record that keeps track of their trainings that are required, elective or annual GHS updates. It is the responsibility of each employee to submit outside training certificates to the training department for record keeping and data entry. All outside trainings must be submitted on the proper form for appropriate credentialing. *The External Training Request Form is located on the Intranet/Forms.*

VII. **DEFINITIONS**

Provider Network: A network of behavioral health providers operating in Genesee Health System (GHS) Service Network to provide mental health treatment.
